

## Everything you need to know about...

### ART EXHIBITIONS

These self-standing display panels provide the perfect display media.

Artists prefer the neutral grey of these panels, which include low voltage lighting systems secured above each panel edge. This flexible display system can be built to accommodate any space or size of display, quickly providing a stylish backdrop to art exhibitions, competition entries or corporate displays.

#### Art Exhibition Display Panels

- hire rates starting from just \$25 per panel
- each panel can have its own light that shines down at 45 degrees
- artwork can be placed anywhere on panel (freedom to move and no visible hanging wires)
- grey material gives a soft, neutral background
- dimensions: 1.8m high by 1.2m wide
- over 100 panels available
- panels attach at 120 degree angles (creating a Y shape) - no feet required
- the low voltage lights have excellent colour rendition to bring out the true colour of the artwork

We can also offer drapes, sound systems, staging and additional lighting if required.
